Remote Deposit Capture

Utilizing Safe, Secure, Proven Technology
to Make Deposits Without Coming to the Bank

The RDC 5 Step Process

1. Checks are totaled and captured
2. Enter amounts that did not scan
3. Verify image quality
4. System creates deposit ticket
5. Submit the deposit for processing

What is remote deposit capture? A method of processing checks for deposit using a scanner and PC connected to the internet. The image of the check is sent to the bank via the internet and used in place of the paper check to collect the funds.

Benefits of remote deposit capture:

- Save time and reduce transportation costs
 - No more copying checks
 - No more leaving the office to drive to the bank
 - No more traffic problems-construction, snow, ice, etc.
 - No more being short handed while employee is at the bank
- Streamlines bank relations
 - Checks from multiple locations deposited to one account
 - New deposit research capabilities
- Less risk
 - No more worries about robbery
 - No more worries about items lost in transit
 - No more worries about traffic accidents
- Quicker credit for deposits
- Faster notification of returned items/bad checks
- Process deposits 24/7

Settlers Bank
115 Third Street
Marietta, Ohio 45750
